

Je Te Promets lyrics - English translation (Version #3)

You want me to tell you that I will love you all my life
You want me to promise you all my nights with you to infinity
You want me to follow you forever without the slightest doubt
And that I understand it all without an explanation

(refrain)

And I cannot tell you what I don't know
And I cannot give you what I don't have
And I cannot leave you even if all is meant to separate us
All I can promise you is a new beginning

I would love for time to stop when we speak to one another
And that millions of stars appear in the sky in plain daylight
So that I can make a wish without sadness
And that we can be together again without hurting one another

(refrain)

And I cannot tell you what I don't know
And I cannot give you what I don't have
And I cannot leave you even if all is meant to separate us
All I can promise you is a new beginning

And I would love to hide beneath your eyelids
So that you see me when you pray
And I would love to rid you of all the light that keeps you
from seeing things more clearly lala lala lalala laala

(refrain)

But I cannot tell you what I don't know
And I cannot give you what I don't have
And I cannot leave you even if all is meant to separate us
All I can promise you is a new beginning
