4. Copy the text that pops up at the bottom of the window.

5. Go to edit your Weebly site and open up the page where you want to place your Vocaroo recording.

6. Select the "Embed" element from the left-hand menu and place it where you want your recording.

7. Paste your embedding code into the box, then click anywhere outside of the box and your recording should show up. It will look like it is missing at first, but when you click PUBLISH, a green icon will show up when you visit your site. Make sure you click PUBLISH when you are finished!
