

La Reprise
Unité 1.2
Français II

Due date: Tuesday, September 2

You are tasked with the responsibility of teaching a review topic to your classmates and creating a review game for your classmates to play to practice your grammar topic. Your group of two will be responsible for two different grammar concepts, which will be assigned by Mme Probst.

Your project will include the following components:

1. You will create a 1-page review sheet for each grammar concept that can be used by your classmates to use as a reference sheet, which also answers all of the questions from the Cornell notes (given to you by Mme Probst). This may be done with graphs, words, diagrams, whatever you need in order to explain the topic. The review sheet and notes are **due on Thursday, August 28**.
 1. Give a clear explanation of the grammar topic and how it is used in the French language.
 2. Give 3-5 examples of the grammar topic in use.
 3. If you would like, you may submit your review sheet to Mme Probst **by Wednesday, August 27** to be checked for accuracy.
2. You will prepare a 3-5 minute review of each grammar skill that you will present to your classmates to "re-teach" the grammar concept. During this re-teaching, your classmates will complete the Cornell notes.
 1. You will present this review to your classmates in small groups on the day that the review presentations and games begin; each member of your group will be responsible for teaching one of the topics.
3. You will then create a game that your classmates will play to practice each grammar skill. You may find games online or create your own game; make sure to check with Mme Probst if you are unsure if your game meets the requirements.
 1. Your game should be able to be played in rounds of 10 minutes or less.
 2. Your game should be able to be played by 6 people or less.
 3. Include an introduction and explanation of your game.
 4. Include instructions that are clear enough to explain the game with your assistance.

The grammar concepts are as follows:

1. Les verbes irréguliers (être, avoir, aller, prendre, boire)
2. La date
3. Les adjectifs
4. La négation
5. Les questions
6. L'heure

7. La possession (les adjectifs possessifs/la possession avec de)
